

STRAVIK
SDN BHD

BUSINESS OPTIMISATION & TRANSFORMATION, EXPERT

About Stravik

Inefficiencies drain productivity. Wasted resources erode profits. Disconnected teams hinder progress. At STRAVIK, we turn these challenges into opportunities. Our expertise in business optimization, cutting-edge technology, and digital ESG solutions empowers organizations like yours to strategize smarter, operate better, reduce waste, and drive sustainable success. With a relentless focus on efficiency and team satisfaction, we don't just solve problems. We create momentum for sustainable growth. Together with you, we make that happen.

What Sets Us Apart?

- ▶ **Proven Expertise:** With real-world industry experience, our team delivers solutions that are effective and grounded in practical knowledge.
- ▶ **Tailored Strategies:** We create personalized strategies that optimize People, Processes, Policies, and Technology to unlock your business's full potential.
- ▶ **Driving Tangible Transformation:** We ensure that strategies lead to practical, impactful changes that drive real business outcomes.
- ▶ **Agile and Innovative Solutions:** By leveraging a network of expert partners, we offer cost-effective, creative solutions—whether it's custom software, training, or consulting—that help your business perform at its best.

How We Drive Results

We empower businesses to achieve sustainable success through our comprehensive range of services. By integrating our professional expertise, advanced technology, and innovative solutions, we help clients navigate the complexities of business transformation with a strong focus on ESG (Environmental, Social, Governance) principles. Our offerings are designed to address every aspect of your transformation journey, ensuring efficient operations, compliance, and long-term growth.

ADVISORY: STRAVIK guides organizations through digital transformation, sustainability, and ESG integration. We optimize People, Processes, Policies, and Technology and provide strategic marketing expertise to drive growth and long-term success.

SaaS SOLUTIONS: STRAVIK offers cutting-edge software tools, including Connects2Save, alongside energy optimization and other advanced solutions. These tools help businesses manage ESG data efficiently, optimize operations, and achieve sustainability goals, driving business optimization and long-term success.

INTEGRATED SERVICES: STRAVIK integrates ESG principles with digital transformation, providing seamless solutions that optimize operations, enhance sustainability, and deliver a competitive edge.

ACADEMY: STRAVIK Academy offers tailored training programs to upskill employees in leadership, soft, and technical skills, optimizing performance and fueling organizational growth. We empower teams to enhance leadership, foster collaboration, and stay competitive in a rapidly evolving landscape.
